

## Electron filling order

Use the electron filling order shown above to write electron configurations for each of the following elements.

1. Potssium (K # 19)
2. Calcium (Ca # 20)
3. Gallium (Ga #31)
4. Bromine (Br #35)
5. Nickel (Ni #28)
6. Krypton (Kr # 36)
7. Zirconium (Zr #40)
8. Silver (Ag# 47)
9. Tellurium (Te # 52)
10. Tungsten (W # 74)
